

# SCHOOL BASED TELEMEDICINE

## **AVAILABLE TO STUDENTS WHO ATTEND:**

Athol High School  
Athol-Royalston Middle School  
Gardner Elementary School  
Gardner Middle School  
Mahar Regional  
Narragansett Regional  
Toy Town Elementary

## **QUICK & CONVENIENT**

**We understand that taking time off work when your child suddenly gets sick at school isn't always easy.**

Heywood's Telemedicine Program, in partnership with your school's healthcare team, can assist with caring for your child while at school. Illnesses that you would normally visit an urgent care clinic for can be treated virtually through the telemedicine program. These may include:

- Sore Throat/Strep Throat
- Earaches
- Coughs & Colds
- Pink Eye
- Asthma
- Minor skin infections

*When a student needs a visit, the school nurse will contact the parent/guardian before requesting the telemedicine visit. A Nurse Practitioner will connect to the student using secure video telehealth equipment. Prescriptions are electronically sent to your pharmacy for your convenience. Lastly, our Nurse Practitioner will follow up with the student's parent/guardian regarding the visit.*

## **SIGN UP TODAY!**

- ✓ Save time - Enroll in advance
- ✓ No cost to enroll
- ✓ No copays
